

# Moore Painting Inc.

**Moore Painting Inc.** has been in business since 1986 and has experienced remarkable growth during this time. We believe that our success can be contributed to our high rate of customer satisfaction and the fact that we conduct our operations in a timely and professional manner.

**Moore Painting** has a labor force ranging from 20 to 25 painters in the field, an office management team working to ensure that all projects are run efficiently, and a full time estimator with over 20 years of commercial, maintenance and residential experience

In the painting industry, there are three different sectors a company can strive towards competing in for services. While we both provide and excel in residential and commercial painting, we have found that **Moore Painting** is best geared towards the maintenance painting industry. We have established mutually beneficial long term relationships with many management companies, retirement communities, education and medical facilities. We are proud of our skillful scheduling practices. Our employees arrive at our shop every day so we can coordinate each job with our supervisors in the morning. This practice leads to less confusion and a more productive and efficient jobsite. We also have a clearly defined customer service policy for our employees to follow to ensure each employee is polite and courteous to every individual we encounter on our jobsites. We help with future budgeting needs and often will consult on long term care of facilities so major maintenance costs are in check.

We have two main production goals. Our first is to stay in close touch with you and your staff in order to complete your painting needs on schedule. Our second goal is to provide the highest quality workmanship at a fair price. In order to achieve these goals, we will work diligently until the requirements of you, our customer, have been met. We are always willing to work during a time frame that will accommodate your schedule.

**Moore Painting** owns a large inventory of equipment such as sprayers, pressure washers, lift, scaffolding, ladders, and other sundries. This enables us to complete projects that other contractors may not be able to undertake due to lack of equipment, manpower, or experience.

I appreciate your time and for considering **Moore Painting**. I look forward to the opportunity to bid your projects and to developing a professional working relationship with you and your staff.

Sincerely, Bill Moore
